PROFESSIONAL SUMMARY

Dr. Sarmad Jabbar Jalil is a Lecturer at the College of Veterinary Medicine, University of Shatrah, Iraq. His academic and research interests focus on fish diseases and health, aquatic animal health, fish immunology, aquatic environmental health and sustainable aquaculture. He has more than 15 years of professional experience in animal health and aquatic environmental fields.

He has contributed to academic teaching, scientific research and university administration, has served in several academic and administrative positions, and has taken part in scientific committees and professional development programmes. His research aims to improve fish health, prevent aquatic diseases, enhance aquaculture productivity and promote sustainable development in the fisheries sector.
