Curriculum Vita

Name : Prof. Dr. Haydar Khamiss Shanan Al-Maliky

Place and date of birth: Thi-Qar, Al- refai, March, 22, 1970.

Nationality: Iraqi

Current address: Thi-qar, Al- nassyriah city

Tel: 07807605134

Email: haydaralmalikyt@shu.edu.iq

Education:

1- Bachelor degree in Veterinary Medicine, Baghdad university, good performance, 1993.
2- Master degree in Veterinary Microbiology, Jordan university of Science and technology, very good performance, January, 2001. Thesis title: Studies on the Bacterial Isolates and Pathology of Bovine Pneumonia in Jordan.
3- Philosophy doctorate degree in Microbiology, Pathogenic bacteria, Science college, Biology Department, Babylon university, 2012. Thesis title: Experimental study of bacterial burn infection in Rabbits

Working experience:

1- Veterinarian (full time) working on the prevention, diagnosis, and treatment of diseases in cattle, horses, sheep, goats, poultry, and small animals (August, 1993- August,1997).

2- Graduate teaching assistant in Microbiology lab. Faculty of veterinary medicine , Jordan university of Science and Technology, Irbid, Jordan, 1997-2001.

3- Writing some veterinarian researches in Veterinarian journal (Jordanian veterinary association).

4- Lecturer assistance in Science college Al- Margib university, Libya 2002- 2004.

5- Head of Microbiology department/ college of Medicine/ University of Thi-Qar (2005-2008).

6- Lecturer in Medicine college, Thi-Qar university .

7- Scientific assessment for some master thesis in education and science colleges

8- Supervisor of master student in education college for pure science

9- Supervisor for several master students in medical microbiology department, college of medicine, university of Thiqar

10- Had a lot of studies published in Thi- Qar Scientific Journal and others journals.

- Bacterial nasal carriage in Jordian bovine, 2005.
- Fish bacterial diseases in Nasiriya marshes 2006.
- Distributed of ticks infestation in Thiqar 2006.
- Fish bacterial disease caused by Flavobacterium spp 2007.
- Survey study o f Typhoid fever in Refai sector . Journal of thiqar university , no. 4 vol. 3, march 2008
- Evaluation of activity of Capsicum annuum extracts against some pathogenic microorganisms. Scientific journal of education college for pure Sciences, thiqar university
- Evaluation of *Cephalopoda* extract against some nosocomial bacterial isolates.2014
- Mec A and mec C genes profile of clinical isolates of Staphylococcus aureus, sixth international scientific veterinary medicine conference, 12-22 november, university of Basrah, 2018

- -Analysis of routine bacterial contamination checking feddback of nassiriyiah city hospitals during 2016. Thiqar medicine journal, vol:1,2019
- Molecular detection of two virulence factors of Pseudomonas aeruginosa isolated from burn patients, university of thiqar journal of science ,volium 7, number 1, june 2019
- The main bacterial isolates associated with urolithiasis in Thiqar province. Annals of the Romanian Society for cell biology. Vol.25 no. 6.2021.scopus
- Molecular detection of virulence genes of E.coli and Staphylococcys aureus isolates associated with urinary tract infection. International journal of environmental sciences. Vol: 11 no: 14, 2025 scopus
- Molecular detection of Klebsiella pneumonia in urinary tract infection among pregnant womenin thiqar province. Microbes and infectious diseases. 6(3). 2025 scopus
- Molecular detection of Klebsiella pneumonia isolated from ruminants secretion in Alshatrah city, south iraqvol: international journal of environmental sciences11, 4s, 2025. scopus
-

Conferences:

Active attending and participation in more than 3 scientific regional and international conferences

1- The first Veterinarian doctors conference in Jordan University of Science and Technology, Irbid, Jordan. 1997.

2- The tenth Arabic Biologist conference, Al-Khomus, Libya, 2003-2004.

3- The first scientific conference, Thi-Qar University 2005.

4- The symposium of Thiqar – Canadian Marsh center, Thiqar University, 2005.

5- Second and third international clinical conference (2011, 2013)

6- The sixth international scientific veterinary medicine conference 12-22 november 2018, basrah city
